

Quote by Wilhelm Busch:
The trees go wild in spring.

New date scheduled for the
NAV General Meeting!
 Tuesday, 18 May 2021
 Start: 16.00h
 Location: via webcast

navNEWS: latest topic in short form

Spring is just around the corner, temperatures are rising and the days are getting longer. Everything seems to take its usual course and yet, nothing is as it was before.

For over a year the entire world has revolved more or less around one topic: Covid-19.

The NAV Board has been able to engage Professor Marcel Tanner for a lecture.

The event will take place on Tuesday, 16 March 2021 at 16.00h.
 Topic: **Covid-19 Vaccination Yes or No?**

Marcel Tanner is Professor of Epidemiology and Parasitology and President of the Swiss Academies of Arts and Sciences (a+). He headed the Public Health Expert Group of the Swiss National COVID-19 Task Force until the end of January 2021. As this is a unique opportunity, the NAV Board is opening the event to all Novartis associates in Switzerland.

The lecture will be held exclusively virtually and in English. Please dial in early to be able to attend.

Participation with the following link:
