● **Your vote for an experienced employee and a voice committed to the future!**

I have been a proud member of the Novartis family for 23 years. My career commenced with a traineeship as a chemical laboratory technician and since then I have worked continuously at my professional development. Thanks to my experience in various positions, I have gained valuable insights into different areas of the company and attained higher qualifications. As a Swiss national, Switzerland is particularly close to my heart. As a mother, I am aware of how important it is for my generation and future generations to have adequate retirement provisions. I understand the challenges we face in our upcoming retirement years. I am passionate about helping to

Sheila Kumschick

shape innovative concepts for retirement provision. My aim is to be part of the development of pioneering solutions that will ensure a secure future for us all. A financially secure retirement is of great importance to us all. As a lifelong learner, I will stand up for my beliefs and opinions. I am willing to contribute my skills and experience to the Board of Trustees and actively participate in decisions that engage with the future. Elect me as a member of the Novartis Pension Fund 1 Board of Trustees

and place your trust in my experience, my passion for Switzerland as a business location and my determination to achieve the best for Novartis employees. Together we can shape a secure and successful future!
