vice president PF 2

● Developing continuity

- *Pension vs. capital.*
- *Security vs. performance maximization.*
- *Assets vs. income.*
- *Comprehensive pension vs. regulatory minimum requirements.*

These are a few of the priorities that I would like to focus on in the next term of office, should you continue to support me with your vote. Without anticipating the election result: it would be an honor for me to be able to represent you on the Boards of Trustees of the Novartis 1 and 2 Pension Funds, as I have done without interruption since 2008, until the end of this term of office, i.e. 2028. I would continue my work in the service of both funds to the best of my ability and I remain convinced that everyone's interests will be safeguarded.

Claudio Campestrin

Country Coordinator N-CH | NI | GM & Trustee
Foundation "Stiftung EAB" | CSA Real Estate Switzerland
Investment Committee member

Various changes came into force at the beginning of 2024. The need for reform of the 2nd pillar of the Swiss social security system – occupational pensions – remains. The referendum on 22.9.2024 will bring about changes, regardless of the result. Opportunities must be seized and regulatory scope used to the best advantage of PF1 and PF2, as well as every beneficiary. After all, the pension fund constitutes the largest share of many people's assets. Accordingly, it needs to be handled with appropriate prudence and foresight.

Thanks to your vote and the trust you have placed in me, I will continue to work to ensure that the Novartis 1 and 2 Pension Funds remain among the best comprehensive pension solutions in Switzerland for active employees as well as retirees and other beneficiaries (e.g. orphans or widows).

Thank you for voting for me and continuing to support me!
